What you will see this week:
- Stone removal on the southwest corner of Memorial Union.
- Select interior demolition.
- Structural demolition of south half of connector roof.

Key shutdowns and closures this week:
- West Wing Closed to Public and Union Staff. This includes the former building services office (now on 5th floor), Union Theater, Craftshop, and Play Circle.
- Electrical shutdowns in West Wing on 1st, 2nd, and 3rd floors. Specific dates to be announced.
- Lot 1 closed to the public (handicap stalls remain).

Other site logistics details this week:
- Please follow signs regarding covered walkway on the corner of Park and Langdon.
- Additional bike parking can be found in Lot 1 and outside H.C. White.
- Hoofers to remain open until the end of summer during construction.
- The Memorial Union Terrace will remain open all summer!
- All Regional Busses including Badger Bus, Megabus, Lamers, and VanGalder will be loading in front of the Red Gym and Pyle Center. Riders should always check the bus company website to verify pick-up/drop-off locations.

Construction noise/vibration this week:
- Noise from stone removal (joint saw-cutting) and debris handling expected on southwest corner of Memorial Union.

Student involvement this week:
- Student Construction Rep will attend weekly construction Core Team meetings and monthly project sustainability meetings.
- Planning meeting with Student Construction Rep and Union President to discuss student involvement in the Phase I furniture selection process.

Project milestones this week:
- Complete electrical shutdowns.
- Complete removal of items to be salvaged in West Wing for demolition to begin.
- Complete stone removal on South Elevation 1.

Looking ahead:
- Installation of basement partitions.
- Interior theater demolition begins: Week of 8/13.
- Site fencing installation behind Red Gym for shoreline work: Week of 8/13.
- Official Groundbreaking Event: 8/27.
- Begin total structural demolition: 8/27.

Stone Salvage at Memorial Union

Over the past several weeks, Boldt has been carefully removing the original 1939 limestone block from the southwest corner of the Memorial Union. Each piece is being photographed, cataloged, and stored during construction. A large portion of these stones will be reconditioned and placed on the new façade of the building to preserve the iconic look and feel of Memorial Union.
