Weekly Construction Blast
Oct 22nd – Oct 27th,

Construction activities:
- Demolition of mechanical/electrical/plumbing in Union Theater
- Completion of structural demolition at the West Wing
- Continue pouring footings and foundation walls at OPO/Hoofers
- Continue underpinning foundations along north side of Union Theater
- Continue micropile installation along the building separation line at the connector
- Complete temporary tie-in of steam line to Memorial Union from H.C. White
- Begin excavation for West Wing elevator cores
- Install 10” underground storm line at OPO/Hoofers

Other site logistics details:
- Demolition of mechanical/electrical/plumbing in Union Theater
- Completion of structural demolition at the West Wing
- Continue pouring footings and foundation walls at OPO/Hoofers
- Continue underpinning foundations along north side of Union Theater
- Complete temporary tie-in of steam line to Memorial Union from H.C. White
- Begin excavation for West Wing elevator cores
- Install 10” underground storm line at OPO/Hoofers

Shoreline Rehabilitation Project:
- Continue installation of refurbished limestone steps along the East Shoreline

Key shutdowns and closures:
- Hoofers will continue to operate from the Lake Lab and 5th floor offices

Other site logistics details:
- Langdon St. is now a ONE-WAY, WESTBOUND street as a result of work associated with the Langdon St. Utility Project. Bicycle traffic will be maintained in both directions with a COUNTER-FLOW BIKE LANE FOR EASTBOUND TRAFFIC.
- Access to the Terrace will be via Langdon St. or through Memorial Union
- Increased construction traffic should be expected for excavation and concrete work on Langdon and Park St.

MUR Construction noise/vibration:
- The majority of the construction noise occurring over the final week of demolition will come from the West Wing south of the Union Theater. Building separation is complete and the remaining hammering and excavation noise will be from foundation removal.

Student Involvement:
- Student Construction Rep is attending bi-weekly construction Core Team meetings and monthly project sustainability meetings.
- This past week students from the UW chapter of the American Society of Civil Engineers visited the Memorial Union for a presentation on the project and site tour.

Neighboring construction projects:
- Langdon St. Utility Project (GREEN FENCING):
  - Demolition of piping in steam tunnel from Science Hall to Memorial Library
- Water Science Building:
  - Construction vehicles using emergency lake access at the north end of Park St. for façade repair on Water Science Building.
- Observatory Drive: Utility work near Radio Hall and H.C. White.
- Lot 6 Maintenance: Stalls will be blocked in the lower level throughout the week.

Homecoming Events at the Union!

This Friday, there will be several events happening at the Union as part of the Homecoming week festivities. These include a live Broadcast of ESPN's Sportscenter with Scott Van Pelt, Live Music, Fireworks, and appearances by the UW Alumni Band and Bucky Badger. Be sure to check out union.wisc.edu for a detailed schedule and more information!
